

For Immediate Release

SMW AUTOMOTIVE SAS RECEIVES THE TS 16949 CERTIFICATION

June 16, 2007 – Troy, Michigan – SMW Automotive Corporation (“SMW”) today announced that it has received its Certification ISO/TS 16949:2002 for its European subsidiary SMW Automotive SAS. The Certificate of Registration covers Precision Machining of Vehicle Components and Design Engineering.

SMW Automotive SAS was created in 2005 to serve the European market for automotive parts. The plant was built in the industrial zone of Compiègne and is conveniently situated within short distance of all the major automotive assembly plants. SMW SAS is located 45 minutes North of Paris Charles de Gaulle airport.

“We are very pleased to receive this certification that confirms the high quality standards we are developing in all our plants” stated Bob Richard, Corporate Quality Manager. “Our Compiègne plant has successfully deployed the corporate quality system with the participation of all employees and continuously trained its people to deliver parts that have zero defects to our customers”.

SMW SAS has been designed to use the most advanced automation technology and is one of our highly efficient and competitive plants.

Compiègne is a pleasant city with a beautiful historical heritage and has one of the largest forests in Europe. It is also the site of the University of Technology of Compiègne that provides well trained engineers and technicians to the industry.

About SMW Automotive Corporation

SMW Automotive Corporation is a global, full service Tier 1 supplier of knuckles, control arms, corner modules and chassis assemblies. SMW has operations in the US, Canada, Europe, China, India and Brazil.
